Videoland. Exhib. A Triologue of Video Artworks. ArtneulandBerlin 26NOV06 - 28FEB07.

Is geography visible? Does it have a place? What roles do knowledge and memory fill in defining a place? The exhibition reveals interrelationships between different types of spaces, between a space that needs no actual manifestation in order to exist in contrast to a physical space. In our developing global reality, more and more geographies are being born. It would seem, then, that the boundaries of the gaze is a question that itself acquires a new meaning. This exhibition seeks to explore the connection between belonging and finding one's place. It does so by means of diverting the gaze away from the local. This is the connection between the Familiar and the Foreign, or the Other. The exhibition is based on a triologue between gazes that deals with the physical space, textual space, sound space, or the space of the human body itself. The participating artists are from various places. They represent the horizon of a foreign place destabilizing their sense of belonging. By so doing, they stabilize a sense of their own place.

Going to Jerusalem.
Birgit Glatzel & **Benjamin Seide.**
Born 1970 in Kempten. Born 1968 in Frankfurt/Main.
Lives in Berlin | Tel Aviv. Lives in Berlin.

Yalla Playback.

Born 1976 in Raanana. Born 1976 in Tashkent.
Lives in Tel Aviv. Lives in Tel Aviv.

Lets Trialogue

Artneuland is an open platform to co-operations. We encourage inter-disciplinary artists to **create debates & celebrate** their voices, beliefs & ideas reflecting one another. We invite individuals, groups, & cultures to acquire, hire or share the artistic fruits of our trialogues contents.

Artneuland's roots are based on the past of the Jews & the present of Israel. It is a multi-cultural society of identities, representations & conflicts. In 2002 we established **ArtneulandTel Aviv** engaging memories, fears & realities into a **contemporary art**. In 2006 we've opened **ArtneulandBerlin**, hoping that our artistic bridge will help to turn yesterday's shame into tomorrow's chance.

Artneuland approaches realities with an artistic inter-disciplinary trialogue among **image, word & people** in order to bridge engaging cultures, focusing on the Israeli – European - Arabic trilateralship.

Monotheism, by definition,
is about monologues.
Artneuland, by definition,
is about trialogues.

Artneuland's Trialogue is **Art. People. Change**. Our Art is Image, Word & People. Our People come from Israeli, European & Arabic cultures. Our Change is taking Our Art to face the daily realities of Our People **towards a better tomorrow**.
